AUTO WORKSHOP ERP

View Only User Manual

This manual covers all features and functions available to the View Only role in FormationX ERP.

FormationX ERP — Auto Workshop Management System

Version 3.0 | June 2026

Contents

- [1. Getting Started](#)
- [2. Understanding the Dashboard](#)
- [3. Using Reports](#)

1. Getting Started

As a View Only user, you can access the Dashboard and Reports. This role is designed for monitoring workshop performance without making changes.

Logging In

Step 1: Open the FormationX application in your web browser.

Step 2: Enter the email and password provided to you.

Step 3: Click "Sign In".

You will see the Dashboard with key business metrics. The sidebar shows only Dashboard and Reports.

2. Understanding the Dashboard

The Dashboard provides a real-time overview of workshop performance.

Key Metrics

- Total Revenue — All invoiced revenue to date.
- Outstanding Invoices — Total unpaid amount across all open invoices.
- Active Jobs — Number of jobs currently in Draft or In Progress status.
- Low Stock Alerts — Parts that are low or out of stock.
- Gross Profit — Revenue minus cost of parts.

Charts

The Revenue Overview chart shows monthly revenue over the past 12 months. The Sales by Category chart shows which types of parts are used most.

Recent Jobs & Alerts

The bottom of the dashboard shows the 5 most recent jobs and any active alerts (overdue invoices, low stock, pending deliveries).

3. Using Reports

Navigate to Reports from the sidebar. Click on any report card to view it.

Available Reports

- Jobs Report — Total revenue, job count, average job value, and status breakdown chart.
- Inventory Report — Product count, total units, cost and retail valuation, stock by category.
- Customer Report — Top customers ranked by total spend with a bar chart.
- Supplier Report — Products supplied per vendor.
- Financial Summary — Billed vs collected, accounts receivable, estimated gross profit.
- Job Completion — Completion rates, in-progress count, status breakdown.

Tip: You can export report data using the Export button where available.
